January 31, 2017

Dear Valued Customer,

We have been informed by our suppliers that they intend to increase prices on polyethylene resin effective February 1st. This increase is the result of lower than normal polyethylene inventory and rising domestic and global demand.

In response to this resin increase, all orders placed on or after February 24, 2017 will be priced at a 7% increase.

Your Wrap Tite representative will gladly answer any questions that you may have.

Sincerely,

Sunil Daga

President
