September 29, 2017

Dear Valued Customer,

With the recent hurricane devastation in the Gulf Coast region of the United States costs of propylene, polypropylene and adhesives have gone up significantly. Not only have costs gone up domestically but incoming import costs have also gone up. Wrap-Tite has been working diligently to keep the price adjustments to bare minimum for its customers. But despite our best efforts, we are no longer able to absorb these increases and will be implementing the following price increases:

Product	% Increase
Hotmelt Tape	7%
Acrylic Tape	5%
Natural Rubber Tape	5%
Water Activated Tape	5%
Masking Tape	3%
Filament Tape	5%
Duct Tape	5%

This increase will effect all orders placed on or after November 1, 2017. All orders call for immediate delivery. Based on supply availability and lead times we can only accept a limited number of new orders. Wrap Tite reserves the right to accept or decline all orders for any reason.

We understand how difficult these last few weeks have been and we appreciate your understanding and patience as we work through the supply issues that the recent hurricanes has caused to our business. Please contact your representative if you have any questions.

Sincerely,

Sunil Daga

President
